

International Conference on Mathematical Modeling in Physical Sciences

October 20-23, 2025
Hybrid, On-line

Topics:

mathematical modeling in fundamental physics
evolutionary computation
complex physical and technical systems
software and computer complexes for experimental data processing

methods, algorithms, and software of computer algebra
computational chemistry, biology, and biophysics
new generation computing tools, distributed scientific computing etc

Important dates:

Abstracts due 31 July 2025
Full papers due 23 October 2025

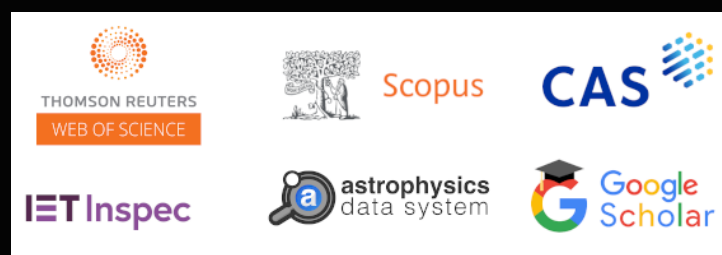

U: <http://www.icmsquare.net>
E: secretariat@icmsquare.net

Administrative support:

The Conference is supported by the IOP and Morressier for handling the submissions

Publications:

All papers will pass a single-blinded peer review process. Accepted papers will be published at **IOP Journal of Physics: Conference Series** and **Springer: Proceedings in Mathematics and Statistics**

Supporting Institutes

University of Peloponnese

Bose Natl. Ctr., Kolkata

University of the Pacific

UTPA

Universidad Andres Bello

MMCSL

California State University

University of Lethbridge

IDAS
